Assembly Instructions

WE RECOMMEND INSTALLATION OF THIS LIGHTING FIXTURE BE DONE BY A LICENSED ELECTRICIAN.
WARNING * SWITCH OFF THE MAIN ELECTRICAL SUPPLY FROM THE MAIN FUSE BOX/CIRCUIT BREAKER BEFORE INSTALLATION.**

1. Carefully remove all parts from the box.
2. Determine how many rods (F) /(G) you need according to the height you need. When the lamp post (F) /(G) is mounted on the lamp body (L), pass the cable through the lamp post, through the suction cap (D) and through the mounting bracket (C).
3. Tighten the instrument screw (I) in the corresponding position.
4. Make sure the power is off.
5. Fix the mounting bracket (C) on the outlet box with screws (B).
6. After the cable passes through the screw pipe in the middle of the mounting bracket, fix the lamp body on the mounting bracket.
7. Wrap two safety cables with junction box (A) and push the cables into the junction box.
8. Push the suction top plate (D) onto the mounting bracket (C) and secure with the component (E).
9. Install the bulb in the socket.
10. Mount the bamboo joint plate (K) on the lamp stand.
11. After installation, power on the fuse or circuit breaker.

*****Clean with a dry, soft cloth only. Use no harsh abrasives or chemical agents*****
